

CIRCULAR PRO-CASE FIRE PROTECTION SYSTEM

RVS

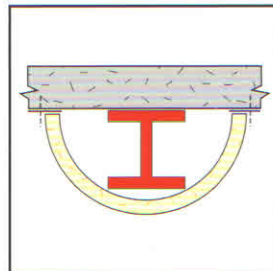

Fire Protection for
Universal Columns,
Circular Hollow Sections &
Mezzanine Floor Supports.

Pre-Formed, tailor-made
casing systems for
protection of structural
steels against fire.
Aesthetically pleasing,
offering good impact
resistance provided by
steel outer case and up to
3 hours fire resistance
Tested to FIRTO 10480
& 10971

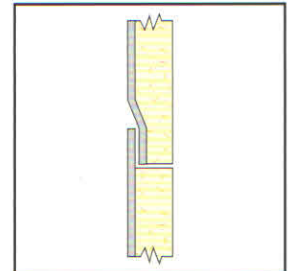

① FIX TO INTERNAL ANGLE

② FIX TO INTEGRAL FLANGE

③ SNAP LOCK JOINT

④ SOCKET & SPIGOT JOINT

Suitable for
Universal
Columns,
Circular Hollow
Sections &
Mezzanine Floor
Supports

Up to 3 Hours
Fire Resistance

Wide Range
of Finishes

Up To 3050mm
Single length

Site survey
facility available

APPEARANCE

Available in Galvanised Steel, Pre-Primed Steel suitable for decorating on site, PVC & PVF2 Colorcoat Steels to current British Steel ranges, Polyester Powder Coated Steel to BS or RAL colour ranges or Stainless Steel.

Other Finishes to suit special environments (Food Preparation, Computer Rooms etc).

All standard finishes are Class 1 surface spread of flame when tested to BS 476 Fire 1971 & Class 0 Building Regulations 1972.

All Pre-finished casings supplied with stripable film for protection during installation & from other trades.

DIMENSIONS

Pro-Case is tailor-made to suit the steel work to be protected. Free-standing casings comprise two semi-circular components which simply snap together. Oversize casings need internal framing. For details contact RVS Limited. Attached casings can be fixed via Internal Angles (fig. A) or Integral Flanges (fig. B).

Circular Pro-Case has a maximum height of 3050mm in one length. For greater lengths a spigot & socket joint is employed to join casings (fig. C). Maximum girth at this length is approximately 2000mm, and minimum diameter is 275mm.
